16:15	Close

***About *aspern IQ*:**

The technology centre *aspern IQ* is the winner of the GreenBuilding Integrated Design Award 2014 and other top-class distinctions. *aspern IQ* is a vital signal of Viennas efforts on energy efficiency and renewable energies in buildings. The building combines passive house quality and a plus energy standard on more than 6,000 m².

Tour: We will be guided throughout the whole building by Mr. Weiss. During the tour experts are invited to ask questions about the building and the applied ID process.

****Aspern Urban Lakeside:**

aspern IQ is embedded in the city development area *Seestadt Aspern*. The *aspern Urban Lakeside* development is the creation of a "city within a city" with a diverse spectrum of urban functions, a brand new centre for Vienna's 22nd district, the surrounding area and the wider Centrope region. Given the long development horizon of over two decades, the property owners and the City of Vienna have agreed on a cooperative management process to ensure a universal high quality of planning, design and implementation throughout.

Tour: We will be guided through one of the biggest construction sites in Europe by Mr. Mitterwallner. During the tour experts are invited to ask questions about the cooperative management process.

Date: 26 November 2014

Venue: *aspern IQ* – winner of the GB ID Award 2014, Seestadtstraße 27 | 1220 Vienna | Austria

Costs and registration: Free of Charge but registration required until 18 November 2014

Language: English
